

RUBBER & PTFE DIAPHRAGMS

Epdm Rubber Diaphragm

INDICATIVE PRICE

INR 650

per piece, ex-works Nashik

MATERIALS

EPDM

DESCRIPTION

EPDM stands for Ethylene Propylene Diene Monomer rubber. EPDM solenoid valve seals are well suited for use with hot water and steam due to EPDM's excellent resistance to heat. The working temperatures of EPDM is approximately between -10 °C to +140 °C. EPDM is unsuitable for use with most oils and fuels.

SPECIFICATION

Material	EPDM	Diaphragm Diameter	17 inch
Usage/Application	Pumps	Shape	D Shape
Color	Black	I Deal In	New Only
Country of Origin	Made in India	Size	As per requirement

MADE TO YOUR DRAWING

Every dimension, hardness and compound above can be changed to suit your assembly. Dies are cut in-house, so a first sample takes days rather than weeks.
