

## ANTI-VIBRATION MOUNTS &amp; ISOLATORS

# Heavy Duty Anti Vibration Mounts

## INDICATIVE PRICE

**INR 1,500**

per piece, ex-works Nashik

## MINIMUM ORDER

**20 Piece**

## MATERIALS

Natural Rubber

## DESCRIPTION

Heavy-duty Rubber Anti-Vibration Mounts with metal base plates designed to absorb vibration, shock and mechanical noise while providing stable support for industrial equipment. Manufactured from high-quality rubber and bonded/assembled with metal components for excellent durability and load-bearing performance. Available in different rubber compounds, hardness grades, sizes and load capacities as per application requirements.

- Motors, pumps & compressors
- Generators and industrial machinery
- Machine tools and equipment
- HVAC and mechanical systems
- Heavy-duty machinery mounting
- Vibration and shock isolation
- Automotive and engineering equipment

## SPECIFICATION

|               |                                                       |                    |                       |
|---------------|-------------------------------------------------------|--------------------|-----------------------|
| Mount Type    | <b>Pad</b>                                            | Load Capacity      | <b>1000 kg</b>        |
| Thread Size   | <b>M16</b>                                            | Bolt / Thread Size | <b>M16</b>            |
| Body Material | <b>Natural Rubber</b>                                 | Material           | <b>Natural Rubber</b> |
| Diameter      | <b>160 mm</b>                                         | Height             | <b>150 mm</b>         |
| Application   | <b>Motors, Generators/DG Sets, Compressors, Pumps</b> | Hardness (Shore A) | <b>60 Shore A</b>     |

**MADE TO YOUR DRAWING**

Every dimension, hardness and compound above can be changed to suit your assembly. Dies are cut in-house, so a first sample takes days rather than weeks.
