

RUBBER-TO-METAL BONDED COMPONENTS

Rubber to Metal Bonded

INDICATIVE PRICE

INR 320

per piece, ex-works Nashik

MINIMUM ORDER

20 Piece

MATERIALS

Nitrile (NBR), Viton (FKM), EPDM, Neoprene (CR), Natural Rubber

DESCRIPTION

These products are made from high quality solutions and rubber that will last for many years. We are offering these products as per customers requirement.

SPECIFICATION

Bonded Part Type	Rubber To Metal	Rubber Material	Natural Rubber
Metal Material	Mild Steel	Packaging Type	Polybag
Thickness	60 mm	Hardness (Shore A)	60
Application	Machinery	Load Capacity	51 To 100 kg
Hardness	40-95 Deg. Shore A	Shape	Round
Bonding Process	Molded Bonded	Temperature Range	-20 To 80 C
Country of Origin	Made in India	Color	Black
Material	Neoprene/Nitrile/Natural/EPDM/Viton		

MADE TO YOUR DRAWING

Every dimension, hardness and compound above can be changed to suit your assembly. Dies are cut in-house, so a first sample takes days rather than weeks.
